

Making Maths Clear

- an introduction to Numicon
A full day course for teacher aides

Friday 11th December 2020
Nathan Homestead, Manurewa
9 – 3 pm

Cost: \$180 + GST, includes resources you can take with you

Presented by Numicon Consultant

Margaret Slack
margaret@edushop.nz
021 046 1623

The course will cover:

- Why some students find maths difficult
- What is maths and how Numicon helps us understand it
- Building confidence with Number knowledge and solving problems
- Exploring the learning progression and use of strategies to solve problems
- Using the Numicon equipment AND take some home!

Ministry Funding available

Teacher Aides love our courses because they can:

- See and experience success right away with their students
- Assess the student's learning by watching and listening
- Have a clear pathway for teaching and learning
- Enjoy the learning and fun games built in

Numicon is:

- Based on decades of research and best practice
- About communication with self and others
- Exploration of patterns and relationships through play and hands-on activities
- Generalising and problem solving
