

NUMICON - AN INTRODUCTION TO A STRUCTURED APPROACH IN MATHS

DUNEDIN

MONDAY, 13TH FEBRUARY 2023

CARISBROOK SCHOOL

217 South Road, Caversham, Dunedin

From 9-3pm

The Course

This full day course will introduce you to the structured approach to maths internationally known as Mastery. This is the approach used by Singapore. Aspects of it are included in the draft new curriculum. We will explore this approach and how Numicon provides a clear journey for a whole school approach including all children in the classroom. Children with high learning needs (Tier 3) love learning maths alongside their peers too. Secondary students struggling with Maths also make great progress as they catch up to their peers.

Maths Bag

Each attendee registered will receive a maths bag full of equipment so you can start using Numicon in your classrooms the very next day!

Cost

\$250 per person (excluding GST)

Growth Mindset:

*Everyone can get smarter
and do better at maths*
